NETWORK TRAVELS

NETWORK TRAVELS INTERACTIVE ELECTRONIC BROCHURE

WHY AN E-BROCHURE?

For your convenience and for the sake of our planet we have discontinued our traditional printed brochure. Traditional offset printing consumes scarce resources and pollutes our environment. This electronic brochure lives on the internet and is available on demand to be viewed on your tablet, smartphone or computer. There is no carbon footprint as it does away with wasteful transportation, envelopes and print over runs.

HOW TO USE THIS E-BROCHURE

You need to open the electronic brochure interactive PDF file in a PDF reader like *Adobe Acrobat* or *Preview* or an E-book reader like *iBooks*. You can navigate in a linear fashion by clicking on the forward and back arrows at the bottom of the pages or click through to the section you wish to go to by using the yellow menu bar at the bottom of your screen.

In addition, if you wish to delve deeper, we have provided links to *Wikipedia*, *Lonely Planet*, *TripAdvisor* and *You Tube* along the lower right of the page. These links will take you to your web browser but you can return to the brochure by clicking on your PDF reader.

We do hope you find this brochure informative yet concise and look forward to hear from you on how we could make it better.
